McIntosh County GOP
August 15, 2023

Resolved, this 15th day of August 2023, that the Republican County Committee of McIntosh County, Oklahoma, is actively committed to restoring election integrity in Oklahoma as follows:

1. We recognize the dangers of Oklahoma's insecure elections that erode voter confidence and participation.

2. While we respect and honor the exemplary integrity of our own county election office and county elections, McIntosh County can and should lead the way in election reform in Oklahoma. We should set an example of the path forward statewide to election integrity.

Therefore, we fully endorse the immediate transition to paper ballots and hand counts by precinct, and the elimination of any and every election machine, without excuse.

3. **We fully support all other efforts our Board of Elections can make to keep our elections secure and transparent, such as: engaging with state legislators to remove Oklahoma from the ERIC contract and eliminate the state law allowing multi state voter registration systems to manage our voter lists, frequent voter list maintenance, making CVR and mail ballots available as public records, etc.**

4. **We also go on record to endorse the nullification and reversal of no-excuse mail-in ballots, and an immediate return to ONE ELECTION DAY.**

5. **We also go on record to endorse the requirement for picture ID at the polls, and watermarked identification of mail-in ballots state-wide.**

6. **We also go on record to endorse the election of all county and state election board members and officials.**
