

Resolution

Opposing Awarding Driver's Licenses to Illegals SB 1409, and any other Law to Change the Current Structure of Awarding Non-Citizens Driver's Licenses

Whereas,

Democrat State Senator Michael Brooks has introduced a Bill in the Oklahoma State Senate to allow Driver's Licenses to be granted to persons illegally entering the United States;

Whereas,

This bill would not only damage the integrity of Oklahoma Law concerning vehicle operation on our highways, but would damage the integrity of elections in Oklahoma;

Whereas,

The Oklahoma County GOP honors our Rule of Law, the Oklahoma State GOP platform, and believes that no one should be awarded privileges when they have cheated to gain their position;

Whereas,

Current policies of the United States Federal Government are directed by an Administration that is allowing thousands of illegal incursions from countries around the globe on our southern border daily, many of whom travel into Oklahoma;

Whereas,

Current Oklahoma Election Law states that the only recourse for voter fraud by the Election Board Secretary is to pass the complainant onto a local District Attorney for the first and final decision on investigation and prosecution (Oklahoma Title 26 section 26. 16. 105);

Whereas,

Oklahoma has already multiple Democrat District Attorneys who may be in favor of an open border, lax election laws, and lax driver licensures in the District they control; raising concerns of "sanctuary city" support, and in other cases limited budgetary funding can impact ability to prosecute; and

Whereas,

Massive additional loopholes exist in these proposed laws since they direct the Election Board Secretary by law NOT made to retain information for future comparison of records to determine if applicants for voter registration have in previous quarters received a non-citizen driver's license;

Therefore:

Be it Resolved, as The Oklahoma Republican Party Platform states on Page 1, As Republicans, we believe, "in welcoming immigrants, who want to legally seek freedom and opportunity, who want to work and who will embrace our values, learn the English language and respect our Union's border and State's sovereignty" and, additionally, in Section F, Immigration, We Support, #4, it states, "We support issuing driver's licenses only to citizens and others who reside here legally, and not to illegal aliens", the _____ County Republican Party unanimously opposes any efforts to change the current statutes in place concerning driver's licenses for non-citizens.

Signed by We, the members of the _____ County Republican Party on this, the _____ Day of _____, in the year of our Lord 20____,
